Cardiac Biomarkers Symposium

High Sensitive Troponin:
Present and Future

24-26 September 2019
Bar Ilan University | Tel Aviv Israel

Topics

- Implementing hs Troponin in the real world – rule-out and rule-in algorithms
- Reclassification of MI based on troponin
- Cardiac Biomarkers: Use of panels versus single tests
- New markers of cardiac disease – potential addition to diagnostics - Tomorrow's possibilities?
- Using Troponin in the Community for Risk Assessment of Cardiovascular Diseases
- New Technologies for Troponin measurement: Advantages of cardiac markers by the bed side
- BNP versus NT PROBNP: Guidelines for implementation of BNP testing

International Guests & Plenary Lecturers

- **Prof Fred apple** (University of Minnesota ,USA)
- **Prof Alan Jaffe** (Mayo Clinic, USA)
- **Dr Jack Ladenson** (Washington University in St. Louis, USA)
- **Prof. Moran Bercovici** (Technion, Israel)

Scientific Committee

Dr Amos Danielli, Dr Marielle Kaplan, Prof Offer Amir, Prof Oren Zinder

Registration include participation to all sessions, posters exhibition, refreshments breaks and lunch
Abstract (up to 250 words) on studies related to the symposium topics can be submitted
for poster presentation

Abstract submission

שליחת תקציר

For Registration click here
